Art Unit: 2826

Serial Number: 10/627794 Attorney's Docket #: YOR920030024US1

Filing Date: 1/25/2003;

Applicant: Cohen et al.

Examiner: Alexander Williams

Applicant's election without traverse of Group I (device claims 1-10) filed 10/18/04 is acknowledged.

This application is in condition for allowance except for the following formal matters:

This application contains claims 11-20 drawn to an invention non-elected without traverse. A complete response to the final rejection must include cancellation of non-elected claims or other appropriate action (see 37 CFR §.1.144 & MPEP § 821.01).

The disclosure is objected to because of the following informalities: On page 11, paragraph [0038], lines 3 and 4, "the line level dielectric 32 and via level dielectrics 31" and on page 9, paragraph [0031], line 7 "the via level dielectric 32" and lines 8-12, "the line level dielectric 31" and "the via level dielectric 32" are confusing and misleading throughout the specification. Which is one or either is correct?

Appropriate correction is required.

Applicant is required to submit an amendment which clarifies the disclosure so that the examiner may make a proper comparison of the invention with the prior art.

Applicant should be careful not to introduce any new matter into the disclosure.

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Art Unit: 2826

The drawings are objected to because items 32 and 31 are described as both in the specification.

Correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Claims 1 to 10 are allowable over the prior art of record.

REASON FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

As to independent claim 1, the prior art of record fails to show the combination recited in any of the claims. In particular, the prior art of record fails to show or collectively teach a ceramic diffusion barrier, between said at least one interlayer dielectric layer and said at least one conducting metal feature, having a composition $\text{Si}(\text{sub } v)\text{N}(\text{sub } w)\text{C}(\text{sub } x)\text{O}(\text{sub } y)\text{H}(\text{sub } z)$, where $0.1 < v < 0.9, 0 < w < 0.5, 0.01 < x < 0.9, 0 < y < 0.7, 0.01 < z < 0.8$ for $v + w + x + y + z = 1$.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The listed references are cited as of interest to this application, but not applied.
